# CARPE DIEM

Your food truck moves at speeds up to 70 km/h. Be ALWAYS where the money is NOW.

- Afternoon. Construction site (set lunches)
- Evening. Embankment (burgers and salads)
- Weekends. Festival or wedding (beverages)

Summer - ice cream by the park, winter - mulled wine at the skating rink. Profit from seasonal menus.

Air conditioning cools the workspace in the heat, truck insulation and installation of heaters allow comfortable work in the cold.
