

Bürkert Solenoid Valves

Interactive 3D Catalogue of valve types

Plunger-type solenoid valve - Type 6013

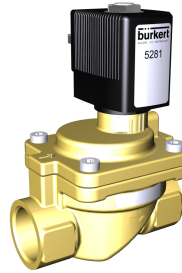

Plunger-type solenoid valve - Type 6014

Pivoted armatur valve Type 0330

Servo assisted solenoid valve with diaphragm Type 5281

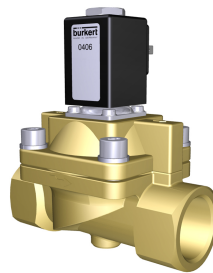

Servo assisted solenoid valve with 3/2-way pilot Type 5282

2/2-way spring coupled servo assisted solenoid valve - Type 6213

Servo assisted solenoid valve with piston Type 0406

Servo assisted solenoid valve with piston Type 0407

Hard coupled servo assisted solenoid valve Type 6240

Direct acting rocker valve - Type 6627

Direct acting flipper valve - Type 6144

TwinPower, Type 6624

TwinPower, Type 6626

Our solenoid valve experience is one of the main pillars of our success. You can bet on our ongoing, practically-oriented expansion of our competence for groundbreaking innovations. Reliable and safe shut off, releasing, dosing, distributing or mixing gases and fluids. Whether you need a single component or a complex system solution, we always focus on optimum process reliability, efficiency and economy.

To be able to use the 3D functionality of this interactive 3D product catalogue, you need a Adobe® Reader, at least version 8. Choose one of the valve types by left clicking the symbol, then the 3D document is opened.
