### Technical Specifications

|                                          |            |
|------------------------------------------|------------|
| ➤ Max. Lifting Moment                    | 30400 Kg.m |
| ➤ Max. Lifting Capacity at 3 m Radius    | 10000 kg   |
| ➤ Max. Lifting Capacity at 4.3 m Radius  | 6920 kg    |
| ➤ Max. Lifting Capacity at 6 m Radius    | 4780 kg    |
| ➤ Max. Lifting Capacity at 8 m Radius    | 3630 kg    |
| ➤ Max. Lifting Capacity at 10.2 m Radius | 2900 kg    |
| ➤ Number of Stabilizers                  | 4          |
| ➤ Weight                                 | 3250 kg    |
| ➤ Power Supply                           | P.T.O      |

|                                       |                                                   |
|---------------------------------------|---------------------------------------------------|
| ➤ Max. Lifting Height                 | 14.4 m                                            |
| ➤ Max. Working Radius                 | 10.2 m                                            |
| ➤ Number of Boom Sections             | 3                                                 |
| ➤ Upgradeable up to 5 Telescopic boom |                                                   |
| ➤ Control station                     | Hydraulic Control panels on both sides of chassis |
| ➤ Min.Truck                           | 19 ton G.V.W                                      |
| ➤ Slewing Angle                       | 420°                                              |

#### ➤ Accessories

- 1.Equipped with remote
- 2.Installation of winch
- 3.Installation of basket
- 4.Other equipment
