

### Pars 3D Modeling

Pars Plant is an AutoCAD add-on that greatly extends the 3D capabilities of standard AutoCAD, enhancing not only the solid modeling capabilities

of AutoCAD but the coordinate system (UCS), Viewing, and Visualization commands as

well. Pars Plant powerful features turn AutoCAD into a serious 3D package that increases design and drafting accuracy and efficiency

(AutoCAD R14.01 thru 2006)

Pars Plant includes all the features you need to produce 3D models and piping drawings effortlessly
