

Mahd Robber Toos Co, producing plate heat exchanger, spare parts and polymer parts has international standard quality management system certification (ISO 9001,2008) Credited with alliance and the vast experience in the rubber industrial since 2003 and close cooperation on Iranian Petroleum, Gas and National Petrochemical companies With staff experienced produced a lot of Good quality rubber parts. The company has been equipped laboratory polymer and ability to provide Test Report and tests requested by the customer and with trust and relies on specialized technical knowledge and using national Standards move us to take action on designing Heat Exchanger and different type of exchanger ,Gasket on different sizes and shapes.

Mahd Robber Toos Co announced its readiness to cooperate in the areas listed below :

#### PLATE HEAT EXCHANGER

- . production and supply plate heat exchangers and spare parts in all brands
- . Supply plate heat exchanger with titanium, alloys D205, C276 materials from producer companies such as :

ALFALAVAL, HISAKA, SONDEX, GEA , TRANTER, SWEP, APV

- . Production plate heat exchanger gaskets in all brands ( ALFALAVAL, HISAKA, SONDEX, GEA , TRANTER, SWEP, APV)
- . Maintenance of plate heat exchangers offer includes : Open and closed , Deposition , Troubleshooting , assembly and retest , Restoration of plates (inconel, d205, c276) with cracks and corrosion

#### PRODUCTIONS OF POLYMER PARTS

- . Production of polymer such as NR, CR, BR, NBR, XNBR, HNBR, SILICONE, VITON
- . Production of coupling, packing, Diaphragm seals, washer, Oring, Oring cord
- . Production and supply all of polymer parts PTFE , EPTFE , PFA TUBE , PFA SHEET , PVDF , PU GLASS , GYLON, KLINGERIT , O-RING KALREZ , DONIFLON , TESNIT , TOP SEAL , JOINT SEALANT , CARBON
- . Types of gaskets SPIRAL WOUND , GRAPHITE SHEET GASKET, METAL GASKETS , DOUBLE JACKET
- . Offering reverse engineering services : visit , mapping Production with Three-dimensional scanner , Testing of raw materials , Prototyping and ...

Mahd Robber Toos Co. wished to strengthen cooperation especially in the field of oil, gas and petrochemical equipment industry in the context of its activities effort to increase market share and develop a culture of consultation and cooperation in the field of polymer parts and plate heat exchangers for Oil, gas and petrochemical industry, pharmaceutical, food , cement and steel .
